- Misfueling NOC ¥50,000 [Untaxable]

* TAX not included

⑤ Driving Rules in Japan

The driving rules in Japan might be a little bit different from your country one. Check the difference!

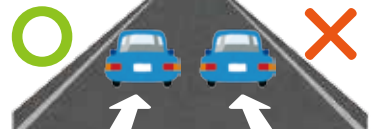

Driving on the Left side

Vehicles must stay on the left side of the road. If there is a center line, drive left of the line.

Keep Left

Drivers should keep left even if the road has no lane markings, except when overtaking another vehicle or other unavoidable circumstances.

Every Passenger must Fasten Seatbelts

Every passenger must fasten seatbelts, not only the driver, but the front and rear passengers as well.

Do not use your mobile phone or GPS while driving.

It is illegal for drivers to use their mobile phones or GPS devices while driving. A fine of JPY 9,000 will apply.

Illegal parking and stopping

Illegal parking and stopping is dangerous to other vehicles. You will be fined, if you are parking or stopping on a road with "No parking" traffic signs. (See the next page.)

Drive Under the legal speed limit

Many drivers tend to go over the legal speed limit. But this is very risky in Japan. Your speed can be checked and monitored in many places, even in mountains. You will be fined based on how much you go over the speed limit: over 5km/h (JPY 9,000), over 15km/h (JPY 12,000), over 25km/h (JPY 18,000), and over 30km/h (JPY 80,000). Check the legal speed limit on the traffic signs and don't follow those risky drivers!

Child Seat Obligation

You must use a child seat with children under the age of 6. If you neglect this obligation, we can't provide a car for children's safety.

Do Not Drink and Drive!

In Japan, if even a small amount of alcohol is detected, every passenger in the car (not only the driver) will be punished. If you are driving, stop drinking 12 hours before you drive. Even though more than 12 hours passed, if you are still under the influence of alcohol, you must not drive.

Anytime Pedestrians have Priority

Whether you are turning right or left, pedestrians have priority. Please be careful not to hit them when making a turn. Even when a person suddenly runs out into the road, in case of an accident, you'll be at fault. Please pay attention to pedestrians behind or between parked cars.

Traffic Signs and Their Meanings

Stop

One-way Traffic

Fine: ¥7,000

Go	Do not Start	Stop
*Flashing Yellow Light Go with Attention	*Flashing Red Light Stop and Attention, then Go	* Green Arrow Go Only the Direction the Arrow Shows
		* Yellow Arrow Only for Trams Cars must stop

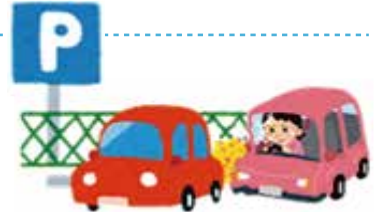

⑥ ACCIDENT PRECAUTIONS

Here is the order of the most common causes of accidents among our customers. Being aware of these situations will significantly reduce your risk. Please go through the list before driving.

No.1 Accidents in a parking lot!

Many accidents happen in a parking lot, where numerous cars, people, and pillars compete for the limited space. Also, parking lots are often small with limited lighting.

If you have to park the vehicle into a tight space, don't hesitate to have someone guide you outside.

No.2 Rear-Ending!

A car cannot stop immediately.

If you hit the brake at 40km/h, the car travels 10m before stopping.

Slippery roads or bad weather can extend this up to 110m!

Your driving experience in your home country will not necessarily be reflected here.

Keep an Enough Distance between you and the Vehicle Ahead!

No.3 Be careful with the door!

A small error and a minor damage can waste your precious vacation time!

Calling the police, on-site investigation, negotiation, and paperwork... (Can take up to half day)

Look around for people or objects before opening the door!

No.4 Ignoring the stop sign!

Don't miss the stop line at an intersection. Some drivers ignore this and continue forward. This can cause a major accident or injury.

Stop when you see the stop sign "止まれ"!

No.5 Overlooking the traffic signal!

Inside the city, traffic signals are often confusing. You may not know which of the multiple signals you need to follow. Running a red light or failing to check the traffic signal can lead to a major accident.

When confused stop and watch what other driver are doing!

Getting into an accident will ruin your vacation or even your health.

**Park carefully, drive at a safe speed and slow down at a curve.
This will spare you from many accidents.**

We at Budget Rent-a-Car wish you a safe and wonderful memories ♪

If any car accident or trouble occurs, please follow these instructions.

Call the following numbers:

* We do not allow you to negotiate with the other party.

* Your insurance plan will not cover any accident if not reported to the police.

7 As Parking your vehicle, Please park it at public/private parking lot

Public Places

When you park your vehicle at public places, such as roads, this is an illegal parking. If you are caught for this, you ought to pay the fine of ¥10,000~18,000. Further, the vehicle may be towed away. Its fee is also paid by you.

Private Properties

In Japan, flats and shops have parking spaces in front of roads, such as around their entrances and on the ground level. Also, residential areas have some parking spaces.

These parking spaces are for the residents of the flats and houses and customers for shops. When you park your vehicle in such parking spaces, this is a parking without permission. In this case, the vehicle may be towed away and you ought to pay its fee. Moreover, you will be entitled to pay the penalty.

Using a parking space of a convenience store or super market, you are interrupting their business as well as violating parking regulations. Therefore, more expensive charges may apply.

In fact, in July 2017, we had a case where a customer was charged ¥90,000 for parking violation, so please be aware of the parking rules in Japan.

● These spaces are private properties. Please Do Not Park.

Apartment's Parking Lot

Monthly Parking Lot

“月極”(contracted) Parking Spaces in Coin Parking Lots

Convenience Store's Parking Lot (park only while you are in the store)

* When you park your vehicle, please park it at places below.

<Public Parking Lot> Example markers are below	<Toll Parking Lot> There is a letter 'P' always, like example markers below:
This shows the parking belongs to the public facility. While you are in the facility, you can use the parking. However, during closed hours, you cannot move your car out from the parking. On the roads with this sign, you can park in the space if you pre-pay toll fee. However, you will be punished if you park before or after their business hours written on the sign.	There are many types of parking lots in Japan, such as multi-story parking lot, locking plate parking lot and etc. The fees are different depends on a location and time, so make sure before you park.

PARKING CONSENT

To: IDEX AUTO JAPAN CO., LTD.

I agree to observe the followings as renting a vehicle (hereinafter called “rental vehicle”) from Budget Rent-A-Car (hereinafter called “BRAC”), operated by Idex Auto Japan.

1. In the accordance with Road Act and any and all related laws and regulations and customs in Japan, I stop and/or park the rental vehicle at appropriate places such as public and/or private parking lots.
2. In the case that I am directed to stop and/or park the rental vehicle at appropriate places by the police and/or the third persons, I comply with it immediately and faithfully.
3. In the case that the parking citation is issued to me by the police due to illegal stopping and/or parking of the rental vehicle; (1) I contact the police and BRAC immediately; (2) I follow any and all related laws and regulations and instructions provided by the police and BRAC; and (3) I act in good order such as appearing at the police station, paying the fine of illegal parking, tow-away fee and any other related fees
4. In the case that any expenditure is accrued to the third persons due to illegal stopping and/or parking of the rental vehicle, I reimburse all the expenditure to the third persons in accordance with instructions provided by BRAC.
The expenditure includes but not limited to the parking fees which the third persons stop and/or park their vehicles at public and/or private parking lots because their vehicles cannot stop and/or park at their properties, tow-away fee to remove the rental vehicle and any penalties set at the properties.
5. In the case that BRAC has to be involved in the negotiations with the police and/or the third persons on behalf of me, I pay BRAC the amount set in 4. for the police and/or the third persons and ¥25,000 set in 4 as service charge for BRAC. BRAC promises to pay the amount I pay and/or reimburse to the police and/or the third persons.
6. In the case that I have to change my original schedule as returning the rental vehicle to BRAC because of taking time to pay and/or reimburse the amount set in 4. or 5., I agree that BRAC does not have any responsibilities to it at all.

What should I do if I violate a parking regulation

If you violate any parking regulation, you will receive a ticket (see sample on the left-hand side).

If you find a ticket tucked under your vehicle's windshield, please visit the police station specified on the ticket.

Show the ticket to the police to receive a penalty slip. You can pay the penalty at a bank or post office. You may not depart from Japan without settling all pending violations.

If you are caught parking illegally or without permission, you will have to pay a penalty and a towing fee (if your vehicle is towed). The total amount can go as high as JPY 50,000. Furthermore, you can spend half a day settling the penalty. To avoid the hassle, please drive in accordance with Japanese laws and customs.

Does every driver need to visit Budget?

Yes, we need to check each driver's international driver's license and passport. If you plan to let another person drive the rented vehicle, please come to Budget with the person beforehand.

* Your insurance plan will not cover any damage and injury caused by an unauthorized driver.

Can I refuel at Budget?

We can only calculate the fuel fee based on your running distance, if you had not refueled at all throughout your rental period. However, the calculation will be approximate, so it will cost much more money, and it'll also take time. Some cases we can't even calculate. So, we strongly recommend you refuel full tank before you return, and you can save your time and money.

What if I need to extend?

To extend your rental, please contact the departure branch via HELP DESK. We'll check car's availability and fee. If you plan to extend for more than 48 hours, we will need a new contract, so please visit Budget beforehand.

* Depending on the situation, the extension may not be accepted.

There are many lanes at expressway entrances.

When you use ETC card, enter "ETC専用" or "ETC・一般" lane in under 20km/h. When you pay in cash or by credit card, enter "一般" or "ETC・一般" lane and get a ticket at the entrance.

At the exit, give the ticket to the staff so they can charge.

* Some locations only accept cash.

* You can drive Urban Expressway with ETC card.

Cash Only

Cash or ETC

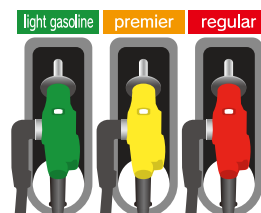

ETC Only

How do I refuel at self-service gas stations?

1. Stop your vehicle alongside the petrol pump. Keep in mind which side your fuel tank is on.
2. The fee should be paid beforehand. Cash or credit cards may be used.
3. Select the gasoline type by pushing the button for: premier "ハイオク" (yellow nozzle), regular "レギュラー" (red) or light gasoline "軽油" (green). To select the amount, choose between 10L, 20L, ...50L. Or select 1,000 yen, 2,000 yen ... 5,000 yen. If you want a full tank, select "満タン".

4. Open your petrol tank, pick up the nozzle for the gasoline you have selected, insert the nozzle into your tank firmly. Pull the lever to start refueling. When it is finished, it will stop automatically.
5. Return the nozzle, and close the fuel tank firmly. Confirm the amount of gasoline and the price on the display. Don't forget to pick up your change when you pay in cash. A receipt is printed out automatically for both cash and credit cards payments.

* Please return your car with a full tank of gas, and keep the receipt from the gas station you last refueled at.

* Nozzle's color may be different at full service stations.

What should I do if my vehicle breaks down?

Contact ACCIDENT SUPPORT LINE **0120-054-550** via HELP DESK **092-735-8886**, and ask for roadside services.

**unlock

Charging
the battery is free

What should I do if an accident occurs?

1. First, move your car to a safe place. (If anybody is injured, keep them in a safe place.)
2. If someone is injured, dial **119** to call for an ambulance.
3. Call police, and complete a police report and all other necessary process.
* You will not receive the report, as it'll be issued later.
4. Finally, call HELP DESK **092-735-888**, and describe the accident in detail.

Attention

- * The towing service usually takes about 2 hours to get to your vehicle.
Please stay around your vehicle until the towing service arrives.
(Depending on the situation, such as typhoon, snow, etc, the service may take more time.)
(The tow truck will not take you anywhere, so please take the train or bus, or call for taxi.)
- * In case the vehicle no longer works because of the accident, the contract will be terminated and a replacement vehicle will not be served.
- * Please visit Budget to report the accident.

If I need to go to the hospital due to an accident, what do I need to do?

If you need to go to the hospital, please contact Budget to inform us of the accident. There is a Contact Form in Budget website.

Tell us "your name", "contact details" and "contract number or insurance details" from the contact form.

Then, we will contact the insurance company. The insurance company will then contact you. Please follow their instructions.

- * Some cases may not be covered by your insurance plan.

I am worried about driving a Japanese car...

Driving a right handle car may sound a bit challenging to left handle car drivers.

The big difference is the position of the turn signal and wiper switch. The turn signal switch is on the right side, and the wiper switch is on the left, so please make sure them before start diving.

Wiper Switch (Left)

Up: Once

Down: Continuous

Pull: Wiper Fluid

Turn Signal Switch (Right)

Up: Left Turn

Down: Right Turn

Turn the tip of the lever: Light

Pull or Push: High Beam Light

You may find a different type of parking brake with a different car. (Stick lever, Center lever or Pedal) Please be sure to check the position of the parking brake, and release it before driving.

If the brake is on, you'll see this sign (⚠) on the display.

There are generally 2 different types of engine starters. One can get started by turning the key with the brake on, and the other can get started by pushing the button on the key with the brake on. Please be informed that the gear shift lever must be in "P" position to start either type.

If you still can't start the engine, there could be an issue with the battery or some other parts. In that case please contact ACCIDENT SUPPORT LINE through HELP DESK

GPS is giving wrong directions.

Due to road changes, construction, natural disasters and so on, GPS can go wrong sometimes.

We replace our GPS units in every 3 years, but due to some causes such as road changes or bad connection with satellite, GPS could give you wrong directions. If satellite connection is the issue, please try to search again.

Please be advised that the GPS accuracy is not perfect, so use the information as a reference. You may want to use your smart phone to check directions, but please stop your car when you use it. Mobile phone use while driving is prohibited by law. We've actually had car accidents caused by smartphone use, so please be aware of it.

I can't find a spare tire.

Recently Japanese cars have a flat tire repair kit instead of a spare tire.

First, remove the valve stem cap, and shake the bottle of the repair liquid, and then pour liquids into the tire. Second, connect the hose of the inflator with the valve stem, and plug inflator into the cigarette lighter socket. Finally, you can pump the tire.

After you pump the tire to normal pressure (or when you hear the beep sound), drive 10 minutes for the repair liquids to go through.

However, if you damage the side of the tire, you won't be able to repair with the kit. In that case, you need to buy a tire from a gas station nearby, or call roadside service.

Please fill up the gas tank when returning your car.

* Please bring the receipt of refueling from the gas station you last refueled at. After checking the vehicle and fuel, the returning process will be complete (We will check if the tank is full.).

Terms and Conditions for Rental

4. If any defects are detected in the rental car upon the checkup under previous Article 13.3, we shall immediately perform necessary repairs and maintenance.

5. The renter of the car is responsible for properly securing the child seat or other equipment. We shall not be responsible for such seating.

2. The renter or the driver shall carry the

Article 15. Managerial Responsibilities of the Renter or the Driver
The renter or the driver shall use and care for the rental car as its proper manager, from the time the rental car is received until it is returned to its [lessor/renter referred to as "period of use"].
Article 16. Daily Inspection and Maintenance
The renter or the driver shall inspect the car for any damage, malfunctions, or irregularities at the time of pickup and return. The renter or the driver shall report any such issues to the rental company immediately upon return of the rental car.

in Article 47-2 (Daily Inspection and Maintenance)
